APPLICATION ACTIVITY: Performance and Conceptual Art and Covid-19

For this activity I would like you to create a performance or a conceptual artwork that relates to your experience of the covid-19 pandemic. You have now learned about both from class, and this is a good time for you to dig deeper into what either performance or conceptual art *is* as well as to *process* this experience in a way that is meaningful to you.

For a performance: record it. Then upload it to an appropriate place (like Youtube). Then write a forum post where you link us to the performance.

For conceptual art: take photos of it. Then upload them to a forum post. *You don't need to explain your art at this time. Let's see how other students interpret it first.

Please respond to at least 2 other students' art.
